Bittrexにログイン後、上記の指示に従ってください

The screenshot shows the Bittrex account settings page. The left sidebar contains a menu with the following items: Summary, Basic Verification, Enhanced Verification, Password, Two-Factor Authentication (highlighted with a red box), API Keys, IP Whitelist, Withdrawal Whitelist, Enable Account, UI Settings, and Notifications. The main content area is titled 'Account Information' and includes fields for 'USER NAME' (blurred), 'ACCOUNT TYPE' (NEW with a question mark), and an 'Upgrade to Basic' button. Below this, there are sections for 'FIAT TRADING', 'MARGIN TRADING', and 'DAILY WITHDRAWAL LIMIT' (0 BTC). At the bottom, there is a 'USER ACTIVITY (LAST 100 ENTRIES)' table with columns for TIME STAMP, ADDRESS, USER AGENT, and ACTIVITY. A red callout box with the text '「Two-Factor Authentication」をクリック' points to the 'Two-Factor Authentication' menu item.

*Bittrex encourages the use of two-factor authentication*  
Two-factor authentication (2fa) greatly increases security by requiring both your password and another form of authentication. Bittrex implements 2fa utilizing Google Authenticator. To enable this feature simply download Google Authenticator on your mobile device and scan the QRCode.  
Once you have linked the Authenticator with Bittrex, enter the 6 digit code provided.  
**Please back up your secret key.** Resetting your two-factor authentication requires opening a support ticket and may take up to 7 days to address.

**TWO-FACTOR AUTHENTICATION** **DISABLED**
